Credit Courses

The following courses meet the VPA standard for high school credit or middle school promotion, but may also be taken for remediation and reinforcing skills and concepts. These courses can help transferring students align with the Veritas curriculum, and returning students to complete missed credit.

Each class will have daily Zoom sessions, as well as opportunities for tutoring as needed. Session times may be adjusted based on student need; any updates will be posted in Google Classroom. All asynchronous work and assignments will be shared using Google Classroom.

These courses are not intended to substitute for future curricular coursework.

ALGEBRA I (All)	For rising freshmen who need to retake or complete the course, or students transferring into high school. **An important note for incoming 10th grade students: Because all students enroll in Algebra II, students who have not taken Algebra I or demonstrated success in Algebra I will need to enroll in Algebra I in summer school. Summer Academy Policies and Procedures

The current Veritas Prep [Family Handbook](#) is the governing policy document.

Admissions: Classes are open to all students who complete registration and comply with course and academy expectations. Alumni are welcome to attend summer courses, upon completing registration.

Synchronous Video Guidelines: Students will follow the guidance of teachers on any sessions requiring the use of the Zoom platform. In this and all interactions at the academy, a disposition and practice of respect for others is the basic expectation. Disregard of guidance may result in removal from a Zoom session, or in extreme circumstances from the course. Refunds for disciplinary removal may not be processed. *By logging into Zoom through the teacher's invitation, you consent to your child participating in an electronic group forum with the teacher as host and with other students. Other individuals may be in student homes, so please be careful to set up your child in a quiet area and possibly to use headphones and sit with their back to a wall. Hosting teachers may mute participants as needed. No recordings of the session will be available to the public. **Please do not record (video, audio, or picture) any part of the session.***

Payment and Refunds: Course fees go directly to support instructor stipends: your support is appreciated. Please contact [Mr. Thoits](#) with questions about financial assistance/scholarships and payments. There is a "Pay Later" option at online checkout: please note that *all payments must be completed no later than one week before the scheduled start of the first class*, or students will not be allowed to attend. Courses may be refunded for any reason up to one week before the scheduled start of the first class. Refunds requested after the start of a course are not guaranteed and may be pro-rated.
