

Veritas has a long-standing practice of helping students build their personal libraries over the course of their VPA careers by requiring them to purchase the “Classics to Keep.” Having the same version of these texts is critical; students participate in Socratic seminars each day, and ensuring that everyone is quite literally on the same page is essential for robust discussion. In addition, we are teaching students to meaningfully annotate their texts with an eye towards depth of inquiry and sense of wonder. Students should have a clean copy of each text so that they can mark as they read and so that teachers can check annotations and coach students on effective annotation practices.

This year, Veritas is making it easier than ever to purchase your child’s consumable books. We have reached out directly to the publishers for discounted rates, and we can provide your student’s consumable book list **at a lower cost than the list price on Amazon.com**—and at a comparable price to the current sale prices on Amazon.com. We love this option because it ensures that all of our students have the same copy of the book, that their text is clean and ready to annotate, and that it will be available on the day we begin each book in class.

The VPA set price for all-new consumable texts is \$76.50. All books will be shipped to and stored at VPA. Teachers will distribute copies of the text to students at the beginning of the applicable unit.

Please select the **6<sup>th</sup> Grade Book Set on Configio and make the full payment by June 15** to allow us time to order the texts and have them ready at the start of the Fall semester. If you are unable to purchase the texts through Configio because of financial hardship or for another reason, kindly contact Nikkol McCallister.
